A Letter From the President

Dear Friend,

You may be wondering why I'm sending you all these materials before attending our upcoming business building workshop that you've registered for.

For 3 reasons actually...

First, I wanted to get your attention by sending you some 'value in advance' by sharing some important insights into what we've accomplished ourselves, and more importantly ***what is possible for you*** with the included 9-part Internet MBA video series and digital book transcription on the enclosed flash drive.

This will whet your appetite for ***more amazing revelations*** you'll experience at the upcoming free workshop which you've registered for. So make sure you be there!

Second, I wanted to give you the opportunity to hear what other past attendees are saying after experiencing the workshop and hearing the information, so be sure to watch the Welcome Video!

In this short 10 minute video, you'll get to ***see and hear highlights*** from a previous event so you'll know what to expect, as well as hear from other past attendees and what they took away from the workshop.

Third, to get the most out of the upcoming online money-making intensive workshop, I wanted you to have this printed workbook to bring with you to the event, in order ***to help maximize your retention*** of the information presented -- and so you can take more success secrets away with you...

You'll want to make sure and bring this with you, because you'll be filling in the answers to the missing information in the workbook live at the workshop. *We've found that this is the very best way to learn!*

Fair enough? Great.

Take a few minutes right now to have a look at this important information, and make sure to mark your calendar with the date, time and location of the workshop – ***as this free event will not repeat.***

I look forward to meeting you there!

Brett J Fogle, President / CEO
